UNITED STATES GOVERNMENT

# Memorandum

TO : **C/GSD**

DATE: **27 July 1965**

FROM : **DAD/S&D**

SUBJECT:

As I recall, we had a brochure from a [redacted] firm 25X1A  
describing a instantaneous frequency measuring equipment,  
and the objective was to make an evaluation of that equipment.  
This memorandum does not refer to the [redacted] equipment 25X1A  
but simply states what equipment, which GSD has developed,  
that [redacted] does. I think that preparation of two columns of 25X1A  
figures, one representing the [redacted] equipment, the other 25X1A  
the [redacted] equipment would be much more meaningful, particularly  
since I suspect there might be a considerable amount of dis-  
cussion on this subject. Would you please redraft along those  
lines.
